ADF Automatic Desiccant Filling Machine

CMS

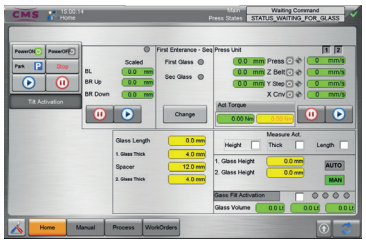
System Configuration

- Full Automatic Filling
- Automatic Drilling & Sealing
- PLC Control
- Adjustable Working Height
- Butyl Tank

Desiccant Filling Procedures Under Your Control

With our high technology, innovative and ergonomic control panel, all your dehumidifier filling processes take place automatically under your control. Software designed with a user-friendly interface minimizes operator intervention and shorten the process of all desiccant filling processes and offer you the fastest solution.



Material Tank

We constantly monitor the level of dehumidifier material in the material tank and provide you with a flow of information about the condition of the material. With the electric heating system, we keep your dehumidifier material warm and ready for use..

Remote Access

Remote access feature provides advanced online assistance and troubleshooting

Fill Rate Detection

Excess desiccants are collected with our unit to prevent waste. Collected dehumidifiers are re-used for filling.
