HM Hotmelt Extruder

	W	L	H
HM	750 mm	900 mm	1650 mm

Hotmelt extruder is designed to seal insulated glass units with hotmelt sealing. With its ergonomic design of hose and gun system the glass can be sealed properly with ease. The tank is made of aluminium which is proofed for high temperatures.

- Compact Design
- Adjustable Material Flow
- Heat Indicators

Material Tank

Tank of the machine is made of aluminum material to ensure fast temperature transmission and material melting.

Two-stage Temperature Control System

With the two-stage temperature control system, we guarantee that the hotmelt material is always melted at the same temperature and remains the same quality.

Low Temperature Warning System

The machine is designed to warn you when the tank temperature drops below the set temperature.

Technical Data

	Tank Capacity
HM	50 kg
