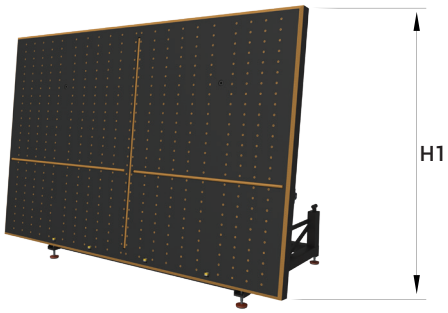
KM Fixed Glass Breaking Table



Tilting Function (Opt.)

	W	L	H	H1
KM3700	2850 mm	4000 mm	900 mm	1800 mm
KM6000	3700 mm	7000 mm	900 mm	1800 mm

Fixed Glass Breaking Table is designed to break cut glass sheets manually and also for unloading big glass sheets. Equipped pneumatic breaker bars in x and y direction is used for breaking the cut glass. The breaker bars controlled by foot pedal and activated by the operator. The table surface is covered by felt for easy glass moving on the table and ensure the glass is protected from damage.

Technical Data

	Maximum Glass Size	Glass Thickness	Fan	Breaking Bars (X+Y)
KM3700	3700x2550 mm	3 -19 mm	1x3 kW	2+1
KM6000	6000x3210 mm	3 -19 mm	2X3 kW	3+1

Features

- Air cushion system for eliminating surface friction,
- Two hydraulic cylinders structure that can move very fast and secure
- High pressure control and safety system,
- Vibration and balance taken fan structure
- Homogeneous air distribution system tray on the table surface
- High flow rate and pressure fan structure
