TF200 Freezer

	W	L	H
TF	700 mm	700 mm	1100 mm

Freezer is designed to reduce or keep the temperature constant in order to slow down or stop the reaction of the chemical substance in the gun apparatus in the sealing extruders (polysulphide, silicone or polyurethane) used in the production of insulated glass.

Technical Data

	Work Temperature
TF200	-35 °C / +50 °C

Features

- The easily adjustable operating temperature
- Cold camera for avoiding the hardening of material in the system
- Hot camera for achievement the operating temperature of mixing material
